

Covid-19 Update:

We are following the recommendations of the AVMA & NCVMA by providing curbside service to all of our clients at this time. ONLY staff are allowed in the building.

We understand this is a stressful time for you & your pets. Visits are taking more time and we ask for your patience.

Our phone is very busy!

Please leave a message if you can't get through and we will return your call as soon as possible.

If your pet needs medication refills or preventatives please call ahead we'll be glad to get those ready & process your payment over the phone. We have a pick up window available for these medication refills.

Please call for a appointment if your pet needs to be seen and we will schedule a time as soon as possible.

When you arrive for your pet's appointment please call our Patient Check In number located on our yard signs and front door. We also have a Patient Check In window available at this time.

Our receptionist will get your pet checked in and a vet assistant will come out and escort your pet in while you wait.

The Doctors will call you to discuss your pet's visit and answer any questions you have.

Our staff will bring your pet back to you and process your payment.

We appreciate you supporting our small business. Thank you for letting us care for your pet.
